

Have advice on childhood illnesses at your fingertips

Every parent or carer wants to know how to do what is best for their baby and to give them the best start in life.

The NHS Clinical Commissioning Groups in Berkshire West have designed an app for Android and iPhone, to help you understand what to do and who to ask in a number of situations; including what to do when your baby or child is ill.

Learn how to care for your child at home, when to seek advice from a health visitor or call a doctor and when to use emergency services.

To download the app for Android or iPhone, search **Berkshire Child Health** or scan the QR code
